

THE WESTLUND CENTER FELLOWSHIP PROGRAM

The Westlund Center (TWC) is excited to announce that Andrea Godoy and Elijah Salazar Reyes, our recently graduated interns, have been awarded TWC Fellowships for their outstanding work during the 2023-2024 academic year.

Their groundbreaking work identifying Greater Northridge community mental health services has laid the foundation for creating The Westlund Center for Interdisciplinary Mental Health Service and Research within CSUN's College of Social and Behavioral Sciences.

Their contributions have also inspired future program interns to build upon their efforts, expanding mental health services to include a video telemental health service (V-TMH).

A \$500 gift accompanies this award for each Fellow.

This honor will be posted on our website as well.

Thank you, Andrea and Elijah, for your outstanding work. Congratulations on this well-deserved recognition.

Wm Getz, DSW, LCSW
